

06/09/2025 - NOTES

1. The meeting started at 07:30
2. Ron (KD5CDM) discussed with group if we would want NARCAN training. Dave will send email to EMROG members to see how many members would be interested.
3. Dave (WD8RZA) Reported that the inverter was not fixed on the EMROG van. There was some discussion if it would be ready for Field Day or not.
4. Dave will schedule a work day to install the HF antenna on the EOC roof. Tentatively 06/19/2025, weather permitting
5. Dave will also schedule a work day to replace the antenna (if needed), cable and repeater on the Travis building. If brackets are required, they have to be installed by 'Facilities', we would install the antenna to the bracket. Hydrove needs at least a 3 week lead time to get authorization for us to complete this work. Tentative date is 07/10/2025, again, weather permitting.
6. EMROG attendance requirements listed were discussed. Perhaps create an associate member if all the requirements were not met. RACES membership would still be required. A list of Amateur Radio Operators that meet all requirements would be published and only Operators that have met all requirements would have EOC access, not associate members.
7. Updates and improvements to the EMROG application was discussed.
8. There is a need to go to the Justice Center and inventory some of the equipment.
9. If updates are made to the STX Depot, notify Luke (K0LTB) so he can confirm. The notification feature no longer works because text by name no longer functions.
10. We are still waiting for a meeting for the Sept 20, 2025 5K run. To iron out details/requirements. This will be held at the Mary Jo Peckham Park in Katy.
11. The meeting ended at 08:39pm.

Send any additions, updates or corrections to me, these items are from my meeting notes.
